WOOL GOES UP.

Uncertainty of Tariff Legislation and the Present Demand

HAVE CAUSED THE FIRST ADVANCE

In Sheep's Wool That Has Taken Place in the American Market Since the Election of 1892—The Demand for Wool Just Now Is Very Brisk. Caused by the Demand for Clothing in American Markets.

Within the past week wool has advanced for the first time since the election of November, 1892, when a "slump" started at the good times Republican figures of 26 and 27 cents per pound for fine washed, and proportionate figures for other grades, and kept to the toboggan until it reached the remarkable figures, 15 and 16 cents for fine washed. The advance this week makes the ruling local quotations as follows: Fine washed, 17 and 18 cents; one-third off for unwashed; medium unwashed, 15 cents; medium washed, 17 and 18 cents.

To an INTELLIGENCER man who inquired as to the cause of the present advance, a prominent wool dealer replied that there are two causes, first, the uncertainty which is growing that the present Democratic Congress will after all fail to pass a tariff bill to supersede the McKinley law, and second, because there is a lively demand for clothing and as the McKinley law, still in effect, places the American manufacturer who pays a higher rate of wages, on an equality with his foreign competitor, he can manufacture and sell the goods in demand until tariff legislation throws open the barriers to the English manufacturer, with whom the home manufacturer cannot compete.

Circuit Court at Mountdeville.

Judge J. A. Campbell was down at Mountdeville yesterday and held a special term of the circuit court. A number of chancery cases were disposed of, the most important being the case of Maggie and Rena Ferrell against Richard Ferrell and others, in which a decree was entered confirming the sale by Richard Ferrell of a lot in the Morton homestead to Mattie Owens. An order was also issued making Minnie J. Pack and her husband, William B. Pack, defendants in this cause, instead of plaintiffs as heretofore. The motion for a new trial in the case of John McCintock and others against George S. Griffith was over-ruled and judgment granted in favor of defendant. The committee appointed to inspect the circuit clerk's office also reported that they found the rule, fee and all other books and papers kept in good order.

A Fine Young Man Dead.

Word was received last evening of the death of Wilbur Jackson, former night cashier of the Western Union office here. He had been in bad health, and went to the country in the hope of bettering it, and not long ago went to the seashore for a brief stay. There he was overcome by the heat the other day, and he never revived. He was a bright, modest, reliable boy, well liked by all who knew him, and his death causes deep and sincere sorrow.

A Good Minstrel Show.

At the Opera House last night the first show of the season was given. It was Low Dockstad's minstrels, and the company is first-class. Dockstad himself has lost none of his old power to entertain. The Marvellos are certainly marvels in their lute, and Sharp and Flat, the musical team, are immense. The singing is all good and the jokes really funny, and a large audience enjoyed the entertainment hugely.

A Puss on the Ferry.

Yesterday morning Pilot Ad Ebberts was relieved of his duties on the ferryboat Charleston, and Collector Armstrong was promoted to be pilot. It is alleged that Ebberts was intoxicated. Early in the morning he had a fight with a young man on the boat, and it is charged that later he refused to bring the boat over from the island to take some workmen across.

The Fowley's New Station.

The engine to be used by Hallock Bros. in the work on the retaining wall on the wharf, preparatory to the construction of the new Fowley passenger station, has arrived and been set up in position for work. A huge derrick will be erected to-day. A large lot of fine stone, to be used in the work, is lying on cars in the Terminal yard.

Miners Resuming Work.

Yesterday four miners went to work in the Whitaker mill coal bank to dig coal for the battery of boilers which is now on. It is expected the force will be gradually increased as new departments start up in the mill, and that in a few weeks something like the old time force will be employed.

At the Tabernacle.

The good work at the Lorne tabernacle is continuing under the direction of Rev. Mr. Bartlebaugh and Prof. Bartlebaugh, who has charge of the song service. To-morrow evening Rev. Mr. Hartzog, of the First Baptist church, Martin's Ferry, will preach, and a good sized congregation is looked for.

At the Etta-Standard.

Mills Nos. 7, 8 and 9 at the Etta-Standard were off on Monday night on account of the bursting of a steam pipe. Nos. 12, 13, 14 and 15 will go on to-day, also the bar mill, and everything will be in operation except mill No. 8, the first time for quite a while.

Turk sidewalks in East Wheeling are now receiving a general overhauling. Apparently about one-third of them need relaying, at least in part.

A post mortem examination was made yesterday on the body of Joseph Gans, who died Monday after an illness of only a few hours. It was found that death was due to ulcers in the stomach, which had gradually eaten through.

A survey is being made on Seventeenth street from Jacob to Woods, by City Engineer Hoge, to ascertain the grade preparatory to paving. A great change will be necessitated in the surface of the street and likewise in the grade of the Baltimore & Ohio railroad track.

TO BRING UP your weight in firm, sound, healthy flesh, after the "Grip," or Pneumonia ("Lung Fever"), Bilious or other fevers, or any wasting disease; to thoroughly purify your blood, rouse your liver to healthy action, and brace up your system when you feel "run-down" or "played-out"—take Dr. Pierce's Golden Medical Discovery.

Arrington, Nelson Co., Pa. Dr. R. V. Pierce: Sir—Allow me to offer my thanks to you for my good health since using your "Golden Medical Discovery." I was but the shadow of a person, so thin and bony, without one moment's ease; had suffered for years with my stomach and liver, and this spring had a very severe attack of La Grippe. I then commenced using the "Discovery," and my recovery is wonderful. I am forty-five years old, and feel as well and strong as I did when sixteen years old; my sleep is as sound as an infant's. I remain,

Yours faithfully,
